PwC's cloud webinar series

Series #4 recap: Cloud monitoring and compliance

DATE: 14th September 2020

Why is it difficult to monitor ?

- Lack of competence?
- Discovering late?
- Lack of visibility?

Common compliance monitoring technique in cloud

- Validation Before Build/Config Change
- Alert with Abnormal Behaviour

Demo

Cloud monitoring: Cloudtrail & Cloudwatch

How does Compliance as a Code work by using Azure Policy

Case study sharing – Compliance as code implementation on virtual bank

Different compliance:

- Compliance requirements from regulator
- Difficulty in compliance rules management
- Security risks
- Quick turnaround for rules compliance
- Lack of skills
